

**- What do I want to learn or understand better?**

Same as last week.

**- How can I help someone else, or the entire team, to learn something new?**

We have scheduled meetings twice per sprint so there are good opportunities to ask each other questions if needed. I can help maybe by sharing recently acquired knowledge during these meetings.

**- What is my contribution towards the team's use of Scrum?**

I think the teams use of scrum is good for us as a team. I think we have found a way to integrate it in a way that helps our process and makes objectives clearer. To contribute to this I have been an active part in the discussions in how to make the it work even better for us as a team.

**- What is my contribution towards the team's deliveries?**

We have clearly defined tasks in our agile scrum board and I have completed the tasks that I took upon me at the beginning of the sprint. I also contributed with ideas during the creation of these tasks and with the team reflection.
