

**- What do I want to learn or understand better?**

I have since last week experimented more with unity and have gained some useful knowledge. Now I want to get a better understanding of how we are going to structure the code of our game. To do that I will discuss with the team.

**- How can I help someone else, or the entire team, to learn something new?**

I have gained knowledge from working this week. Others could stand to gain by that knowledge. So I could pass it on.

**- What is my contribution towards the team's use of Scrum?**

I understand scrum better now. We have established a scrum board as well as a project backlog. I took part in the discussions leading up to these achievements.

**- What is my contribution towards the team's deliveries?**

I have contributed to the deliveries by providing input in the discussions.
