Individual Reflections

Martin Andersson 2020-09-13

- **What do I want to learn or understand better?**

  I want to learn to use some of more advanced unity tools to be able to contribute to our project. This would probably be done by watching tutorials and share our knowledge between our group members.

- **How can I help someone else, or the entire team, to learn something new?**

  I want to share as much as I can about my earlier experiences with unity.

- **What is my contribution towards the team's use of Scrum?**

  Have not started working with it yet.

- **What is my contribution towards the team's deliveries?**

  We did some brainstorming where came up with some ideas for our project.
